Ward's Cabinetry
Everybody's beauty mark.

ECO-Choice Construction

Cabinet Box Construction:

- Veneer core material (bamboo veneer exterior and bamboo veneer interior); 5/8" thick sides with 5/32" thick backs
- Veneer face and back qualify for LEED Credit MR 6 Rapidly Renewable
- Sheet stock is CARB Phase 2 compliant (California Air Resources Board)
- Finished interior standard in cabinets **at no extra charge** (bamboo veneer interiors)
- **No charge** finished ends (must specify finished ends on order though)
- Most plastic brackets are constructed of biodegradable materials
- Recyclable metal hardware

Finish and Colors:

- Environmentally friendly topcoat finish
- Natural Bamboo with clear topcoat
- Caramelized Bamboo with clear topcoat

Doors:

- Bamboo cross core 3-ply edge grain doors (3/4" thick)
- Blumotion soft close for doors as standard (**no upcharge**)

Drawer Construction:

- Bamboo cross core 3-ply edge grain drawer fronts (3/4" thick)
- Bamboo cross core 3-ply edge grain dovetail drawer box components (3/4" thick)
- Drawers will be equipped with Blumotion drawer rails as standard (**no upcharge**)
- Drawer box heights will be 4" or 9" depending on drawer front height

Beautiful edge grain detail on doors and drawer boxes.
